BLADE

BLADE

A detail. An icon. Your bike, even more exclusive.

BLADE is more than a rearview mirror. It is a pure design object, designed to enhance the lines of YOUR bike and transform every ride into a unique experience. Sculpted in aluminum, carbon fiber, illuminated by sequential LEDs.
Blade is the ultimate accessory for those who experience the bike as a statement of style, power and belonging.

ALLUMINIO BLACK

ALLUMINIO SILVER

BLADE

Choose your COLOR

The mirrors are short-arm and entirely made of billet aluminum through a CNC machining process. After that it they get an anodic treatment to give color and protection to the material.
They are perfectly interchangeable with the originals.
All aluminum parts are available in colors:

Black

Silver

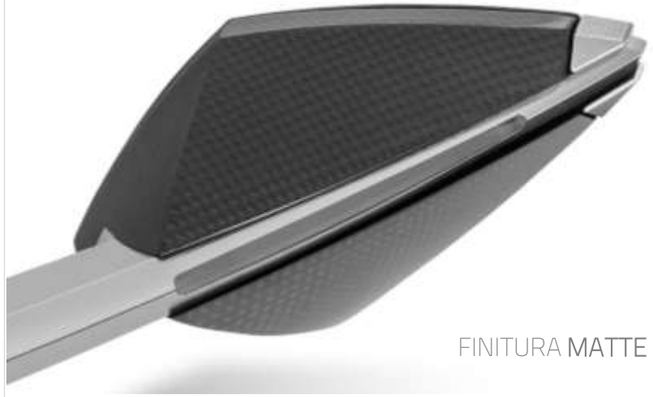

BLADE

Choose your CARBON fiber

You can choose autoclave-cured carbon fiber with the following textures:

PLAIN	*(matt and glossy)*

BLADE

Details that make the difference

FOLDABLE

The mirrors are FOLDABLE without the use of tools, for racing functionality and greater versatility.

INDICATORS ON THE GLASS

The glass includes a built-in signal LED that reminds you if the arrows are active

GLASS

Convex, anti-glare mirror with blue tone, designed to ensure maximum visibility in all light conditions.

SEQUENTIAL LEDs

Integrated SMD LED turn signals with sequential MODE, for a distinctive and dynamic light signature.

PLUG & PLAY ELECTRICAL CONNECTION

Supplied with original connectors depending on the bike, without the need for modifications or additional resistance. Quick and easy assembly.

SPECIAL ATTACHMENT

Supplied complete with a specific attachment for YOUR bike, for quick assembly without adaptations.

WEIGHT AND AERODYNAMICS

These mirrors weigh only 280 Gr and have been designed to cut the wind in order to ensure zero vibrations and minimize air resistance

PERFECT COMPATIBILITY

BLADE mirrors can be purchased with dedicated attachments for the following motorcycles:

DUCATI PANIGALE V4 \ V2 MY 24
DUCATI PANIGALE V4 \ V2 MY 25 (available from July)
