LINEA

Handlebar mirror

LINEA line of universal handlebar rear-view mirrors compatible with all motorcycles with handlebars with hole from Ø 13 to Ø 21 mm or with M6 or M8 thread.
They are entirely made of billet aluminum using a CNC mechanical process.
The handlebar fix is made of aluminum and carbon fiber of your choice in the wide range of DB Race finishes.

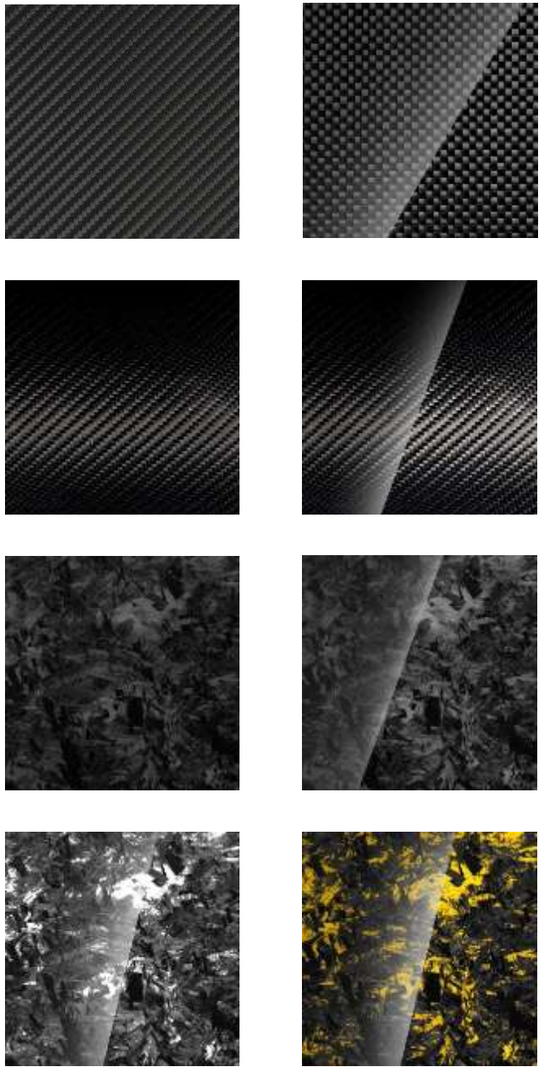

LINEA

choose your CARBON

For the handlebar fix you can choose autoclave-cured carbon fiber with the following textures:

PLAIN (matt and glossy)
TWILL (matte and glossy)
FORGED (matte and glossy)
FORGED SILVER (glossy)
FORGED GOLD (glossy)

NOTE : The Plain 200gr/sqm texture is perfectly compatible with DP brand OEM products.
Protective anti-U.V. paint available both GLOSSY and MAT.

LINEA

Choose your COLOR

In addition to the type of carbon, you can choose the color of the ring on the handlebar fix to customize YOUR product even more.
The available colors are:

BLACK
SILVER
RED
BLUE
ORANGE
GOLD
GREEN

NOTE: on request we can complete the mirrors with customized colors

... Dettagli che fanno la differenza ...

ALUMINUM

All components are made of CNC machined billet aluminum. Deep anodizing finish ensures strength and durability.

CARBON

The handlebar fix stem is made of real carbon fiber 100% made in Italy polymerized in an autoclave.
Available with textures: PLAIN, TWILL, FORGED.

GLASS

Convex, anti-glare mirror with blue tone, designed to ensure maximum visibility in all light conditions.

HANDLEBAR FIX

The mirrors are supplied with universal expanders suitable for handlebars with a hole from Ø13 to Ø21 mm.
In the package there are also screws for fixing on handlebars with M6 or M8 thread.

ADJUSTMENT

Quick and easy adjustment without the need for tools
