DB Race

Leverguard

Lever guard

UNIVERSAL lever guards by DB Race Design compatible with all motorcycles with handlebars with a hole from Ø 13 to Ø 21 mm or with an M6 / M8 thread.

The lever guards are entirely made from **BILLET** aluminum through a **CNC** machining process and are integral with the aluminum insert available in 2 colors **SILVER and BLACK .** The lever guard is completed with the aluminum **TIP** available in 4 colors BLACK - SILVER - RED - BLUE.

The DB Race lever guard has been designed to guarantee maximum safety and maximum **COMFORT** while riding the motorbike. Its particular **ERGONOMICS** ensures a secure grip even when bending.

The accessories have the same **WEIGHT** of the original to ensure perfect balance of the handlebars while riding. It is compatible with handlebars with holes from **Ø12 to Ø21** mm with **M8** or **M6** thread.

On the lever guard you can have the following standard writings with laser engraving (**PANIGALE, STREETFIGHTER, BMW S1000RR, BMW M1000RR, CBR1000RR, ZX-10 R, YAMAHA R1**.). On request you can also have it without any writing (**NEUTRAL** version) or with personalization

ALUMINIUM

All parts are made from billet aluminum, the finish and coloring is made by a chemical anodizing process.

ERGONOMICS

The DB Race handlebar cap is designed to ensure maximum safety and comfort while riding the motorcycle. Its special ergonomics ensure a secure grip even when leaning into corners.

WEIGHT

The lever guard is supplied together with the clutch side handlebar cap. Both accessories have the same weight to ensure perfect handlebar balance while riding.

EXPANSORS
